SENeca

Two men are seated at a table covered with a green cloth. The man on the left has white hair and a mustache, wearing a light blue button-down shirt. The man on the right is younger, wearing a white polo shirt with a dark collar and a name tag. They appear to be in conversation.

A man in a dark suit and tie stands on the right side of the frame, looking towards the seated men. He has his hands clasped in front of him. In the background, another man in a suit is partially visible.

**MISSION AND PURPOSE**

- Educate a community on recycling and the benefits of comprehensive waste management and recycling programs.
- Assist the implementation and coordination of recycling and recycling programs in the State of Georgia.
- Promote education and recycling activities through the speakers' Bureau and other programs.
- Establish a Recycling Coordinating Council to meet the common goals of EPA, and other organizations.

As chosen by Georgia Recycling Coalition, Inc. we will be held at the appropriate time and location. For more information, please contact us at 404-525-1111.

**PROGRAM ACTIVITIES**

- Annual meetings and conferences
- Co-sponsorship of recycling conferences
- Quarterly newsletters

BY THE GOVERNOR OF THE STATE OF GEORGIA

## A PROCLAMATION COMPOST AWARENESS WEEK

- WHEREAS: Organic materials suitable for composting represent up to 65% of materials landfilled each year while composting remains a viable and effective form of waste reduction, reuse and recycling; and
- WHEREAS: Home composting and mulching is a way households can reduce the volume of waste generated at home, take individual responsibility for keeping waste costs down, and decrease reliance on tax-supported programs; and
- WHEREAS: Centralized composting programs, both public and private, would benefit from increased awareness of the benefits of adding organic materials to the soil, thereby increasing demand for compost and mulch products; and
- WHEREAS: Returning organic resources to the soil is a method of decreasing the dependence on non-renewable resources, conserving water, improving air quality, reducing stream pollution and providing a more aesthetically pleasing and sustainable environment; and
- WHEREAS: Compost and compost amended soils provide many important stormwater management functions and functional landscapes that store, evaporate, filter and slow the velocity of stormwater runoff, reducing peak flows and volume aiding in erosion prevention and pollution control; and
- WHEREAS: Community sustainability is enhanced by promoting the use of renewable resources in landscaping, horticulture and agriculture as well as public works and projects; now
- THEREFORE: I, SONNY PERDUE, Governor of the State of Georgia, do hereby proclaim May 6-12, 2007, as COMPOST AWARENESS WEEK in Georgia.

In witness thereof, I have hereunto set my hand and caused the Seal of the Executive Department to be affixed this 25<sup>th</sup> day of April in the year of our Lord two thousand seven.
