Need a Boost for your Program?-Submit for a National Award! NRC Awards Nominations DUE SEPT 7th

Outstanding Community programs, businesses, non-profits, individuals, elected officials, emerging leaders, Recycling Organizations and Higher Education programs are all potential winners. You only need to prepare two word documents to upload into the

survey monkey blanks: 150 words summarizing how they are outstanding; and 250-1000 words describing the qualifications.

Submittals should highlight effects on recycling, the hierarchy, and tons; how long program or individual has been active; innovation, leadership and program economics (as relevant). The higher education award has different criteria; stress the relationship with degree programs, career services, applied research / tech transfer, and links with recycling industries.
