WHAT CAN BE RECYCLED?

We keep it simple. All glass food and beverage containers are recyclable. All colors can be recycled in the same bin, and there's no need to remove labels or rinse the containers!

CONVENIENT CONTAINERS

These carts are on wheels, allowing you to maneuver them as needed.

Size	Bottle Capacity	Dimensions
64 Gallon	500 beer / 220 wine	31.75" x 24.25" x 41.75"
96 Gallon	750 beer / 330 wine	35.75" x 29.75" x 43.25"

IT'S TIME TO GO PURPLE, GEORGIA!

COMMERCIAL RECYCLING PROGRAM

Ripple Glass provides glass recycling pick-up services for your business, making it simple for your staff to recycle used glass. Recycling glass saves energy, creates local jobs, and can save you some real green! Plus, your customers care! A recent study found that 60% of people care that the businesses they patronize recycle.

WHAT IS RIPPLE GLASS?

Ripple is your local glass recycling partner! At our processing facility in College Park, GA, we clean and crush all of the glass we collect. This process allows recycled glass to be remade into new bottles or fiberglass insulation by local manufacturers.

WHY RECYCLE GLASS?

Using recycled glass instead of raw materials saves enormous amounts of energy.

Recycling glass reduces pollution, and extends the life of our local landfills.

Recycling also creates jobs. Folks who are smarter than we are estimate that recycling glass creates about 10 times more jobs than trashing it.

**RECYCLING GLASS IS GOOD FOR OUR
PLANET AND FOR OUR LOCAL ECONOMY!**
